

Teamwork.

Team Building Events.

Overview.

By taking your colleagues out of the office together to experience a team-building, activity based event – we can help to build a stronger team, improve decision making abilities, enhance customer service, resolve conflict and aid our client in planning for and adapting to a continually changing future.

We help individuals develop a new appreciation for collaboration. Our activities show a group how to achieve goals that at first seemed impossible. “To achieve great team synergy, honest and open communication is vital to the success of any team”.

Good team work breathes creativity, increased productivity and is essential to innovating new ways of working and serving both internal and external customers. This program will give your executives the chance to discover and practice strategies in a safe environment, which emulates constantly changing and demanding work pressures. In order to achieve the team objective, the delegates will have to challenge the status quo and experiment with new ideas.

This event will encourage the team to share ideas, listen to other people's views and nominate roles appropriate to the task at hand. To achieve the end objective, delegates will need to take ownership for the part that they play and share accountability for their actions and end results.

Through their involvement in tasks participant's generate situations similar to those commonly encountered at work. They create genuine, tangible issues that provide the basis for personal learning. Through discussion they develop a greater understanding of what happened and why, and how they as individuals, team members or leaders could have been more effective. Finally participants consider the consequences of their learning and set themselves personal targets for improvement which can either be tested and enhanced in further training activities or transferred immediately to the work place.

We have created a library of themes, activities and exercise and by understanding the key outcomes you require from the event we can assist you in the selection of the most suitable content.

The chosen games, activities and exercises will get delegates to question the way they currently work and give them the practical experience along the 'how to' skills that they can implement back in the workplace.
